

502 NEPOTISM

Policy 502 was included in the 2001 University Handbook revision.

502.1 Nepotism. Neither faculty nor staff may participate in decisions affecting the appointment, tenure, promotion, or other personnel actions involving a relative. In situations where direct supervision by a relative is involved, the next level supervisor will be responsible for establishing procedures as required to assure equitable personnel decisions.

502.1.1 Definition of Relative. For purposes of this policy, whether by birth, adoption, or marriage, a relative is defined as a parent, spouse, child, brother, sister, aunt, uncle, nephew, or niece.

Last revised May 4, 2012.
